

Biggest expense of a light tower **IS NOT** the purchase price. It is the daily operating expense.

<p>Diesel Light Tower</p>  <p>60 month operating cost \$86,400</p> <p>15 times more expensive to operate</p>	<p>24hr running fuel cost \$2.50 /gal = \$24.00 /day \$900 per month \$10,800 per year \$45 refuel labor x 144 trips = \$6,480 yearly Total Yearly Op Exp \$10,800 + \$6,480 = \$17,280</p> <p>\$17,280 x 5yrs = \$86,400</p>	<p>12hr running fuel cost \$2.50 /gal = \$15.00 /day \$450 per month \$5,400 per year \$45 refuel labor x 72 trips = \$3,240 yearly Total Yearly Op Exp \$5,400 + \$3,240 = \$8,640</p> <p>\$8,640 x 5yrs = \$43,200</p>
<p>Hybrid (Solar and Diesel) Light Tower</p>  <p>60 month operating cost \$5,625</p> <p>15 times less expensive to operate</p>	<p>24hr running fuel cost \$2.50 /gal = \$2.50 /day \$75 per month \$900 per year \$45 refuel labor x 5 trips = \$225 yearly</p> <p>Total Yearly Op Exp \$900 + \$225 = \$1,125</p> <p>\$1,125 x 5 yrs = \$5,625</p>	<p>12hr running fuel cost \$2.50 /gal = \$2.50 /day \$ 75 per month \$ 900 per year \$45 refuel labor x 5 trips = \$225 yearly</p> <p>Total Yearly Op Exp \$900 + \$225 = \$1,125</p> <p>\$1,125 x 5 yrs = \$5,625</p>

Plus

Logistics bonus...**Refuel every 45 days not every 3 days**
Logistics bonus...Oil change every 5 months not every month
Longevity bonus...Engine lasts 10 times longer
Easy, fast, safe deployment with hydraulic controls
Easy, fast light adjustments with pan and tilt controls
Clearer, whiter LED light resulting in safer work area
Meet company and government sustainability requirements
Reduce carbon footprint, reduce carbon tax
Improve company image
